PROFESSIONAL SUMMARY

Software development intern with skills in Java, Python, web development, and AI/ML fundamentals. Experienced in building web applications, working with REST APIs and databases, and developing data-driven project features. Focused on writing clear, maintainable code and solving practical software problems.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Frameworks & Libraries: Spring Boot, Hibernate, React.js, FastAPI, Flask

Data Science & ML: NumPy, Pandas, scikit-learn, Matplotlib, Seaborn, Jupyter Notebook

Databases & Tools: MySQL, Git, GitHub, Postman

Core Concepts: Data Structures and Algorithms (DSA), OOP, REST APIs, data preprocessing, AI/ML

EXPERIENCE

Software Development Intern — Softcurious Technologies | May 2026 – Present

- Contribute to real-world web application development using ReactJS, Python and related technologies, supporting full-stack features.
- Participate in the software development lifecycle, from implementation and testing to debugging and refinement.
- Troubleshoot application issues to improve functionality and user experience; work with Git, MySQL, and REST API integration.

PROJECTS

Program Outcome Assessment & Mapping System | Jan 2026

Tech: Java, Spring Boot, React.js, MySQL, Git | [GitHub Repository](#)

- Built a web platform for course-outcome/program-outcome (CO-PO) mapping and academic outcome evaluation.
- Processed CSV-based academic data to automate outcome calculations, validate uploads, and generate standardized PDF reports.
- Developed responsive interfaces and connected frontend workflows to backend services through REST APIs.

Snap Search — AI Fashion Discovery & Styling Platform | Jun 2026

Tech: React.js, FastAPI, Firebase Authentication, Cloudinary, Groq AI, SerpAPI | [GitHub Repository](#)

- Developed an AI-powered fashion discovery platform for image-based product search and recommendations.
- Built Fast API endpoints for image processing, product discovery, and AI-assisted styling; integrated cloud and authentication services.
- Implemented responsive UI, secure user access, and wish list management.

EDUCATION

B.E., Electronics and Telecommunication Engineering — Smt. Kashibai Navale College of Engineering, Pune | 2022 – 2026 | CGPA: 8.38

Class XII (HSC) — Sadashivrao Mane Vidyalaya, Akhuj | 2022 | Percentage: 68.83%

Class X (SSC) — Jijamata English Medium School, Sarati | 2020 | Percentage: 92.20%

CERTIFICATIONS

Java Full Stack Development Certification (2025) | AI & Machine Learning Certification (2026)
